

## Selective Service Requirement

### *For Male Career Academy & Concurrent Enrollment Students*

#### What is Selective Service registration?

Registration is a way our government keeps a list of names of men from which to draw in case of a national emergency requiring rapid expansion of our Armed Forces. By registering all young men, Selective Service ensures that a future draft will be fair and equitable. Virtually all male U.S. citizens, regardless of where they live, and male immigrant, whether documented or undocumented, residing in the United States, who are 18 through 25, are required to register with Selective Service. The law says men must register with Selective Service within 30 days of their 18 birthday. That means men are required to register with Selective Service sometime during the 30 days before their 18th birthday, their 18th birthday, and the following 29 days after their 18th birthday – that is a 60-day registration period. (Registering with Selective Service does not mean you are joining the military.) [Source: <https://www.sss.gov/OA>]

#### Selective Service registration & registering for college courses

Colorado law states that anyone who does not register for Selective Service cannot enroll at a state college or university. [Source: <http://www.aims.edu/student/admissions/faq?d=80#643>]. **If the student will be 18 within a month before or after the start date of the semester for which he wants to register for classes, he will need to register with Selective Service in order to be able to register for classes.**
